What's Your Resolution for the New Year?

Dear Friends and Valued Customers,

Most people see the new year as an opportunity to reflect and set goals for improvement-whether it's losing weight, exercising more or being better organized. For us, here at Gohn & Stambaugh, our continued resolution is to, not just meet, but exceed your expectations, every call, every day, all year. We are committed to doing our best every day to keep you safe, save you money and improve your energy efficiency without sacrificing a minute of your comfort.

We keep our team well trained and up to date on the latest technology so you will have an expert on your side whenever you need help or advice, whether it's for an installation, a tune-up or an emergency repair.

On behalf of the company, I wish you and your families a happy, healthy and safe New Year!

Best Regards,

Benrus L. Stambaugh II
President

HOME SAFETY

More home fires occur during the cold winter months than at any other time of the year.

32% of home heating fires are caused by space heaters.

TIPS:

1. **Keep anything that can burn** at least 3 feet away from a heating source.
2. **Have your heating system** inspected annually.
3. **Keep vents** clear of dust and debris.
4. **Install Carbon Monoxide (CO)** alarms to avoid the risk of CO poisoning.
5. **Replace the batteries** in your smoke alarm and test weekly.
6. **Make a fire action plan** and escape plan.

Remember!

Employee of the Year—Tyler Myers

This year's Employee of the Year went to Tyler Myers, one of our HVAC Service Technicians. Many of you have probably had Tyler in your home to perform maintenance on your HVAC system or come out to your home when your system needed a repair. Tyler's work and professionalism have been commended by many and has not gone unnoticed with our staff. We would like to congratulate Tyler on his performance and his representation of Gohn & Stambaugh. Tyler has been with us for over 2 years and we look forward to many more years of his quality service.

Away from work Tyler is an avid hunter and fisherman and he also plays baseball in the local men's league.

Brian Heiland Returns to Gohn & Stambaugh

Brian Heiland, who previously left Gohn & Stambaugh for another opportunity after working with us for 7 years from 2007 until 2014, has returned to Gohn & Stambaugh. Brian is a plumber with a master's license.

Brian will be helping Chris Koller, our Service Manager, with some estimates and other daily duties. Brian will also be performing service calls or other in the field work as needed. So, whether Brian is at your home to look at a job for an estimate or if he is there to fix a leak, welcome Brian back to the Gohn & Stambaugh team.

Away from work Brian spends most of his time with his family. He enjoys hunting and fishing when he gets the opportunity and also enjoys playing pool.

air scrubber PLUS[®]

WITH CERTIFIED SPACE TECHNOLOGY™

Winter cabin fever got you down? Concerned about the Air Quality? Air Scrubber Plus can help.

PURIFY

Reduce Irritating Particles

Lack of sleep, sneezing, itchy, watery eyes...it's allergy season. Dust, mold, pollen or many of the other pollutants can cause irritation and allergy symptoms. These contaminants can be reduced with the Air Scrubber Plus[®]. ActivePure Technology uses specialized light waves along with a proprietary catalytic process that creates enviro-scrubbing molecules of oxygen and hydrogen which purify your air and reduce irritating particles that can irritate allergy symptoms.

PROTECT

Extend the Life of Your HVAC System

Air Scrubber Plus[®] extends the life of your existing heating and air conditioning system by trapping dirt, dust and other debris before it enters through the filter, damaging the coils and blower that keep your system running effectively. A protected HVAC system can last longer, save you money on your utility bill and reduce the need for expensive service calls.

CLEAN

Reduce Contaminants

Do you worry about what is being brought into your home? Contaminants from school, daycare or the office follow us home on hands, clothes and shoes and land on our doorknobs, counter-tops and floors. Air Scrubber Plus contains ActivePure Technology, proven to destroy up to 99% of all surface contaminants. Additionally, this breakthrough technology scrubs, purifies and cleans the air you breathe by reducing approximately 90% of airborne contaminants.

DEODORIZE

Banish Lingering Odors

Whether burnt dinner, a family member that smokes or a pet that's just come in from the rain, there's not much you can do to prevent some of life's odors. But now there's something you can do about them. Working through your heating and air conditioning unit, the Air Scrubber Plus[®] is a unique photocatalytic device that will significantly reduce dust, pet dander and odors in your home. You will be able to reduce common smells such as pet odor, cigarette smoke, paint fumes, mold smells and of course the occasional burnt food odor.

Weaver Eye	Roth Farms	St John's Church
SPCA	Mission Barbecue	Martin Foot & Ankle
Hillside Restaurant	Dicky's Barbecue	Penn Waste
Newport Medical	Pet Value	Family Dollar

What Recent Customers Had To Say:

*"From purchase, to installation, to operation, was performed in a superior manner. The same high quality I receive from your Plumbing Department." **Eldon R. Richardson***

*"Great value, great service, very professional installation and kept me informed during the entire installation process and final walk thru on new operating instructions." **Timothy Debes***

"After another contractor hit and broke the underground fuel oil line to our fuel-oil furnace; you were quick to respond and make a temporary repair so we had heat.

We decided to replace the fuel oil furnace with a gas furnace. Ben was very helpful with our decision on this purchase.

We decided to have our duct work cleaned, by you, before installing the new furnace.

Excellent Quality service. All of your service technicians were friendly and did a great job. A fair price on the repair work and for the new gas furnace we had you install. A quality product made in the USA.

*We highly recommend your company." **Clark Ruppert***
